ROLE OF COALITION MEMBERS

The Burlington Healthy Community Coalition works to create a drug and violence free community where our youth can reach a healthy maturity and become contributing members of society. The Coalition uses data for decision making, proven strategies as program choices, and on-going evaluation. In addition, the Coalition works collaboratively with other community partners to provide programs to raise awareness of the value of prevention and sound prevention science. Coalition members can promote these opportunities by attending trainings and community meetings, encouraging others to attend, and by sharing information.
